

CLASS OF 2017 YEAR OF THE WOLF

WCC
UNIVERSITY

Join us in January and February at our Cincinnati Location:

**11956 Tramway Drive
Cincinnati, Ohio 45241**

January 12; Golf Irrigation Service

A nuts-n-bolts class focused on diagnosing common electrical problems in golf irrigation systems. Use of volt-Ohm meter is practiced with many hands-on exercises. (\$40 per person)

January 13; Rain Bird Golf Satellite Maintenance

Instruction and hands-on practice diagnosing and replacing failed components. Explanation of components and their functions. (\$20 per person)

January 13; Rain Bird Golf Decoder Maintenance

Instruction and hands-on practice diagnosing problems with field wiring and decoders. Use of Mili-Amp Meters. Tricks to minimize diagnostic time. (\$25 per person)

January 13; Rain Bird IC System Maintenance

Learn the use of system diagnostics and meters to diagnose and locate failed components or wire issues. Hands-on practice on live system. (\$20 per person)

January 31; Landscape Irrigation Design

Classroom instruction with plenty of exercises to drive home the basic design skills for landscape irrigation systems. (\$30 per person)

February 1; SMART Irrigation Revolution

An exploration into the myriad of irrigation control systems. Including the latest on internet (wifi) enabled systems. Discussion about installation requirements and set-up. Good to understand options available and future systems. (FREE)

February 2; Landscape Irrigation Installation

Classroom instruction with ample hands-on exercises. Covers the basic skills of assembly for the common materials used to make a landscape irrigation system. (\$30 per person)

February 7; Outdoor Lighting Installation

Instruction and hands-on practice with the skills necessary for a successful lighting installation. Includes some basic diagnostics and service skills. (\$30 per person)

February 23; Landscape Drainage Fundamentals

Learn how to apply drainage product and technics to fix nagging water problems in the landscape. Make drainage a profitable addition to landscape services. (\$30 per person)

February 16; Irrigation Electrical Service

A nuts-n-bolts class focused on diagnosing common electrical problems in landscape and sport turf irrigation systems. Use of volt-Ohm meter is practiced with many hands-on exercises. (\$30 per person)

February 23; Rain Bird Golf Central User Training

Instruction and hands-on practice to do basic set up changes and daily operations. Will explore handy advanced functions. Focus on getting best performance with simpler operation. (\$30 per person)

- IRRIGATION
- ELECTRICAL

- DRAINAGE
- OUTDOOR LIGHTING

- SMART IRRIGATION
- AND MORE!

Landscape Irrigation Design

Who: For those who design landscape irrigation systems.

What: Classroom instruction with plenty of exercises to drive home the basic design skills for landscape irrigation systems, including:

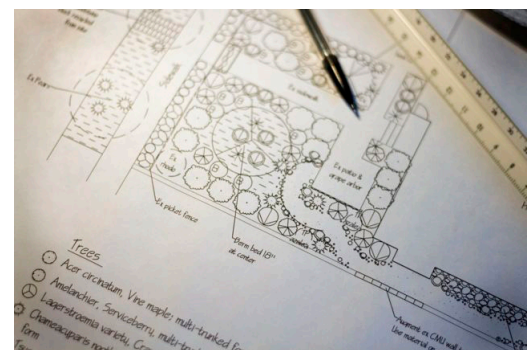

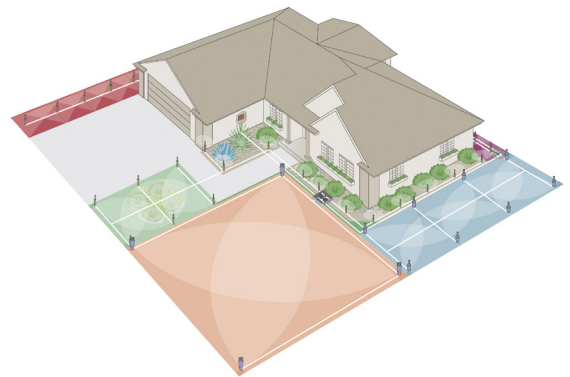

- Water supply requirements
- Sprinkler selection
- Sprinkler layout
- Low volume (drip) layout
- Zoning
- Piping considerations
- Wiring
- Controller selection and options

Where/When: All classes will be held at the following Wolf Creek Company branch locations:

- 839 Contract Street Lexington, KY on Jan 25
- 13030 Middletown Industrial Blvd Louisville, KY on Jan 26
- 11956 Tramway Drive Cincinnati, OH on Jan 31

Golf Irrigation Service

Who: For anyone who maintains or operates a golf course irrigation system.

What:

Golf Irrigation Electrical Diagnostics

A nuts-n-bolts class focused on diagnosing common electrical problems in golf irrigation systems. Use of volt-Ohm meter is practiced with many hands-on exercises.

Grounding Systems

Instruction about levels of protection possible with grounding equipment and technics. Explanation of why you may implement certain products. Tips and criteria for a successful grounding network.

Large Pipe Repair

Short instruction on utilizing available products and technics to make pipe repair easier and faster. Proper methods are discussed. Includes press-on and solvent weld PVC repair.

Rain Bird Golf Rotor Maintenance

Hands-on instruction how to disassemble and Rain Bird golf rotor and rebuild. Discussion about common service issues and how to diagnose them.

Where/When: All classes will be held at the following Wolf Creek Company branch locations:

- 13030 Middletown Industrial Blvd Louisville, KY on Jan 10
